## Medicare

We are participating physicians with Medicare. Charges for services rendered to Medicare patients will be filed with Palmetto GBA. Medicare patients are responsible for their \$100.00 annual Medicare deductible, 20% co-pays of allowed charges, any non-covered services ordered by the physician with does not meet Medicare's medical necessity rules and for which the beneficiary has signed an Advanced Beneficiary Notice (ABN).

## Medi-Cal

We are no longer covered services providers for Medi-Cal as of July 1, 2009. If you have Medi-Cal as a secondary insurance, you are responsible for any payments in which it would have covered.

**By signing below I agree to pay any fees for services that were rendered and that are not covered or that do not meet the medical necessity criteria by my insurance. *I also understand that Medicare only covers 26 visits per calendar year and that I am responsible for any visits that go over the 26 visits.***
